PROFESSIONAL SUMMARY

Digital Media Designer with a background in Video Editing, Motion Graphics, Web Design, and Graphic Design. I possess a wide range of design abilities that combine a love for storytelling and innovative design principles to create and execute engaging graphics and video content that tell a compelling story.

SKILLS

Adobe Photoshop, Adobe Premiere Pro, Adobe After Effects.

Maya, 3D Fusion, Blender, HTML & CSS, P5 JavaScript.

- I have experience in multi-media design and currently work as a part-time, freelance graphic designer to design and develop animated logos for clients.
- The software programs I consistently use as my main medium as a freelance artist are Blender 3D animation software and Adobe Premiere Pro.
- I have earned college degrees in design. The intensive coursework taken during my undergraduate helped provide a solid educational background in multi-media art and design.

EXPERIENCE

- **Current Employer: Santa Cruz Spine and Sport**

Job Title: Marketer

*Duration: May 2025 to **Present***

Alongside my full-time role, I hold a part-time hybrid position contributing 15–20 hours per week as a Marketing Media Specialist for a Chiropractic clinic. My responsibilities focus on both video editing and graphic design. I film on-site patient testimonials and promotional content weekly, then edit the footage using Adobe Premiere Pro to create polished videos and social media reels for platforms such as YouTube and TikTok. Additionally, I design custom thumbnails and visual assets to support each video's branding and engagement, showcasing my skills in Adobe Creative Suite.

- **Current Employer: Security Industries Solutions**

Job Title: Security Guard Specialist

*Duration: February 2024 to **Present***

Currently, I am employed full-time as a Security Officer with Security Industry Specialists. Based in San Jose, I commute to Sunnyvale, where I operate a patrol vehicle and provide customer service support as part of my daily responsibilities. Customer Experience is my motivation for this role.

- **Current Employer: Self Employed**
Job Title: Freelance Graphic Designer and Content Creator

*Duration: January 2019 to **Present***

As a freelance multimedia artist, I have collaborated with personal clients to support the growth of their brands by producing creative assets tailored for various digital and social media platforms. Through these projects, I have refined my expertise in Adobe Creative Suite, delivering visually compelling content across diverse formats and mediums.

- **Past Employer: Soarkidz**
Job Title: Community Manager and Video Editor

Duration: February 2023 to August 2023

I collaborated with a private online education company that offers advanced instruction in writing, reading, and debate for students in grades 1 through 8—subjects often not covered in traditional public school curricula. Within the technical department, I supported data and office management operations, while also producing digital content. My primary role involved editing teacher introduction videos and class materials using Adobe Creative Cloud, particularly Adobe Premiere Pro. These videos were tailored for platforms such as YouTube and designed to engage our primary audience: parents seeking high-quality educational alternatives for their children.

- **Past Employer: Legiosix**
Job Title: Freelance Video Content Specialist

Duration: December 2022 to February 2023

I worked for Legiosix which is a freelance platform comparable to UpWork, I regularly complete creative assignments in video editing and graphic design. Each week, I receive a list of available projects and have the flexibility to select those that align with my skills. Projects typically involve video editing or Photoshop work. After submission, selected projects are compensated based on quality and performance, encouraging a high level of creativity, precision, and professionalism.

- **Past Employer: Super Purposes**
Job Title: Digital Video Specialist

Duration: May 2022 to November 2022

I completed a certified internship with a career coaching and advertising company, where I held the role of Digital Video Specialist. This fully remote position was part of a 6 months (or 200 hours) structured program designed to provide hands-on experience in video editing and content development. Throughout the internship, I worked on producing multimedia assets for promotional campaigns across major social media platforms, contributing to the company's branding and outreach initiatives.
